Henri Matisse

Sit back and rest a while we are in this together

Woman in a purple coat

Henri Matisse was a Fauve Artist which is French for Wild Beast. He was a sickly child and his mother bought him paints to keep him busy and occupied when he was stuck in the house. Woman in a Purple Coat is a portrait of his mother that Matisse did.

Make that picture that you will always cherish

Have your mom sit in her favorite chair and relax with a blanket on her lap. Pose her like Matisse's Mother. Draw a portrait of your mother like a fauve artist adding the patterns that Matisse added into his painting. This can be a line drawing or you can add color. Make this a masterpiece!

Take your time... that's what we have right now! You will love to tell stories about this one day!

Send me pictures! I want to see how wild you get you fauve artist!!! I miss you!
